

# OLUWADAMILARE ODUSAMI

Cybersecurity Analyst

## BIOGRAPHY

As a final year student at Caleb University specializing in Cyber Security. My expertise spans across various areas within the field, including cloud security, application vulnerability assessment, and penetration testing. With approximately a year of working experience, I have honed my skills in DevOpsSec and have a deep understanding of the importance of securing applications in today's digital landscape. Currently serving as the CSEAN Campus President at Caleb University, I am dedicated to promoting cybersecurity awareness and best practices among my peers. I am passionate about staying ahead of emerging threats and continuously expanding my knowledge in order to effectively protect data and systems. My goal is to make a meaningful impact in the cybersecurity industry by leveraging my expertise in cloud security, penetration testing, and application security to help organizations strengthen their defenses against cyber threats.

## ABOUT ME

Academic Level  
Degree Bachelor

Age  
18 - 22 Years

Gender  
Male

Industry  
Management

### IT Certification(s)
